Education

California Polytechnic State University, San Luis Obispo
Bachelor of Science, Graphic Communication | GPA: 3.64

- **Concentration:** Experience Design for Extended Realities
- **Minors:** French, Computer Science, Physics
- **To be conferred:** June 2022

UX Design Experience

Mobile Experience Designer March 2020
Xplor 2020 Communication Design Competition

- Created product strategy, wireframes, and high-fidelity prototype over 2 months for a telecommunications company's mobile app
- Designed for accessibility by considering cognitive impairments based on target user demographics and fringe cases
- Co-developed and implemented branding and style guidelines for continuity with printed mailing piece and digital web products

UX/UI Designer March 2018
Workday FireCode Hack at Cal Poly, SLO

- Sole designer in 8-person engineer team at industry-sponsored hackathon; responsible for mobile design, prototypes, and visual assets
- Ideated an emergency services application that crowd-sources live reports, reducing wasted first-responder time on false alarms
- Worked closely with front-end developer to translate wireframes and original assets into a functional Android interface

Leadership Experience

Project Manager December 2019 – Present
Cal Poly User Experience Club

- Created curriculum for weekly lessons in interaction design, interface design, UX writing, UX research, content strategy, and accessibility
- Managed 20+ students (4 functional teams) in redesign of university's mobile application, resulting in a cohesive high-fidelity prototype

Space Control Operator July 2016 – Present
Vandenberg Air Force Base, California

- Recipient of Air Force Commendation Medal for deployment to Southwest Asia as subject matter expert on a \$8 million TS/SCI system
- Responsible for development, implementation, and instruction of the in-house electromagnetism fundamentals training
- Graduate of the Air Force's exclusive leadership + management course
